

Congratulations On Your Citizenship!

Kimkhue T. Pham

We know her as Ms. Kim, a CAD designer and USI's longest standing employee. But she is also a wife, mother of three, grandmother to five and a proud native of Vietnam. Prior to coming to the United States, she was an elementary school teacher. Ms. Kim has been a dedicated employee of Urban Systems for 33 years, which is almost as long as she has been in the U.S. She says, "working here is friendly, fun and like a family, and I get to learn a lot. When I came to this company, I didn't know anything about Traffic."

She says since Covid, to maintain her health, afternoons have been the best time for her to work. Ms. Kim usually gets her day started at around 2pm and stays as late as 10pm. Ms. Kim added, "I am thankful for Urban Systems; they have helped me so that I can provide for my family and children. And I feel like I help everybody here." USI is honored to congratulate Ms. Kim, as of May 20, 2022 she is a citizen of the United States. *Congratulations Kim, we truly appreciate you!*

Fireworks Painting

This simple fireworks painting craft is perfect for little ones, as it requires just a few tools and very little adult supervision.

USI Donates to Pradat Park

Pradat Park is a local NORDC playground located in New Orleans East that is run

completely by volunteers. This year, USI supported the playground by purchasing new uniforms for the 11 & 12 year old boys baseball team.

USI wishes the Pradat Warriors the best of luck as they are midway through their season!

Looking Ahead

- Labor Day- Monday, September 5, 2022
- Last Day of Summer- September 22, 2022

Happy Fourth of July!

Sending you lots of love, happiness and prosperity as we celebrate Independence Day.

-Urban Systems, Inc.
